

Control system

Remote control

EA72 solar controller

Network module

Temperature controller and energy meter

| | |
|------------------------|---|
| EMC1 mc:floor | Control system for low-temperature heating with built-in energy consumption metering |
| EMC2 mc:flexi | Control system for space heating with heating central and low temperature floor heating |
| EMC3 mc:symphony | Control system for a solar heating system, auxiliary heat supply and low temperature floor heating. |
| EA40 rc: | Remote control for EMC1, EMC2 and EMC3. |
| EA50 tpm: | Network module to be inserted in EMC1. |
| EA52 dmc: | digital measuring card to be inserted in EMC1, EMC2 and EMC3 |
| EA60 server | Server for control of EMC1 network. |
| EA70 water meter | DOMAQUA water meter compatible with EMC1, EMC2 and EMC3 |
| EA71 electricity meter | KAMSTRUP electricity meter compatible with EMC1, EMC2 and EMC3. |
| EA72 solar controller | Solar system controller based on temperature difference thermostat |
| EA73 zone valve | HONEYWELL motor valve compatible with EMC1, EMC2 and EMC3 |
| EA74 sensor: | PT1000 temperature sensor |
